ABOUT ME

I am a 3rd year Software Engineering student at Belgium Campus iTversity with hands-on experience in designing, developing and testing software applications using Java, C#, Python, JavaScript and other languages. Fully proficient in a range of database software and technologies, and familiar with object-oriented programming, web technologies and the full software development lifecycle (SDLC). I work effectively both independently and as part of a development team. Always open to industry connections, mentorship, and collaboration opportunities.
